Remember, mandates and directives from the Government or any other authority are **NOT LAW**. Our natural rights are actually enshrined within Natural Law and Common Law, which have been used to govern and keep peace in communities since earliest civilisations. Bodily sovereignty is one of these rights. **Most of Australia's media is owned by two corporations.**

So try and seek out independent sources of information and use alternate search engines, eg: DuckDuckGo and Ecosia. Do your own research. Think critically and without bias. Ultimately, our actions will create the reality we live in!
