## It is time to PROTECT YOUR KIDS

- 1) Did you know it's a clinical trial? The biggest one ever according to Health Minister for Australia, Greg Hunt. [www.youtube.com/watch?v=ITndr9O4hbA](http://www.youtube.com/watch?v=ITndr9O4hbA)
- 2) Did you know the test used for Covid isn't really a test and can't tell the difference between CV19 and the flu? No matter what Greek alphabet is used. The Centres for Disease Control and Prevention (The CDC) said so. (Scan QR Code bottom centre.)
- 3) Did you know according to Victorian Health Minister Brett Sutton the Australian PCR tests are different. We're special. Well aren't we lucky folks?
- 4) Did you know breast milk from covid jabbed mums can be toxic. A baby died from it. (Scan QR Code bottom right).
- 5) Did you know Myocarditis or inflammation of the heart is a common side effect of the death jab in teenagers in North America?
- 6) The children are the targets folks.

If you don't stand up for yourself, you can't stand up for the kids.
