God's Own Country

Northern Rivers Free State MOVEMENT

God's Own Country

Since the beginning of Australian Federation, establishment of additional states within the Commonwealth has been possible and desirable.

Now is the time for the people of the Northern Rivers to unite for their freedom and protect their unique values and lifestyle.

A new state is to be established from the Tweed to the mighty Clarence River, for Freedom and Integrity.
It's time for NREXIT.

Join the process

No more lockdowns
No more forced medical procedures
An end to political corruption

The creation of a new state within Australia; The Northern Rivers Free State.

From the Sydney Morning Herald, January 5, 2005.

It may not be commonly known in Australia that there has existed a movement, since even before the time of Federation, to increase the numbers of colonies and States here.

In the 1840's and 1850's John Dunmore Lang was agitating for Victoria and Queensland to be separated from the colony of New South Wales.

Also the Australian Commonwealth Constitution, which came into effect in 1901, was crafted around the idea that there would be new states and the father of Federation Sir Henry Parkes once declared.

“As a matter of reason and logical forecast, it cannot be doubted that if the Union were inaugurated with double the number of present colonies, the growth and prosperity of all would be absolutely assured.”

In 1935 the New South Wales Nicholson Royal Commission recommended the boundaries for three new States within New South Wales, including a northern one that also contained Newcastle.

There was a New England New State movement pioneered by Ulrich Ellis and it was a powerful force.

The leader of the Country Party Sir Earle Page dreamed that his own town

of Grafton would become the capital of a great new State in Northern New South Wales.

In 1953 twenty one Councils in the North of the State defied the State government and held an unofficial referendum on the issue of the New State.

The yes vote was carried by margins varying from 69-87%.

In 1967 an official referendum in the Northern area was finally held for the New England State and was narrowly defeated by a 54% no vote.

The New South Wales Farmers Association in 2004 resolved at their annual conference; that the association explore the possibility of forming a non metropolitan State and established a task force to research the possibility.

Tony Windsor the former independent MP for New England said that “farmers feel alienated by the city/ country divide, their voices are not heard by Macquarie St, the overwhelming majority of the population live in Sydney.”

N.S.W. means Newcastle, Sydney and Wollongong.

Poor returns to regional areas from the districts tax contribution, forced Council amalgamations and the closure of rail lines have hardened their mood.

Former bureaucrat Ian Johnson has stated that only 70 cents in each tax dollar raised makes it back to the region in government spending, and the current system costs the region jobs.

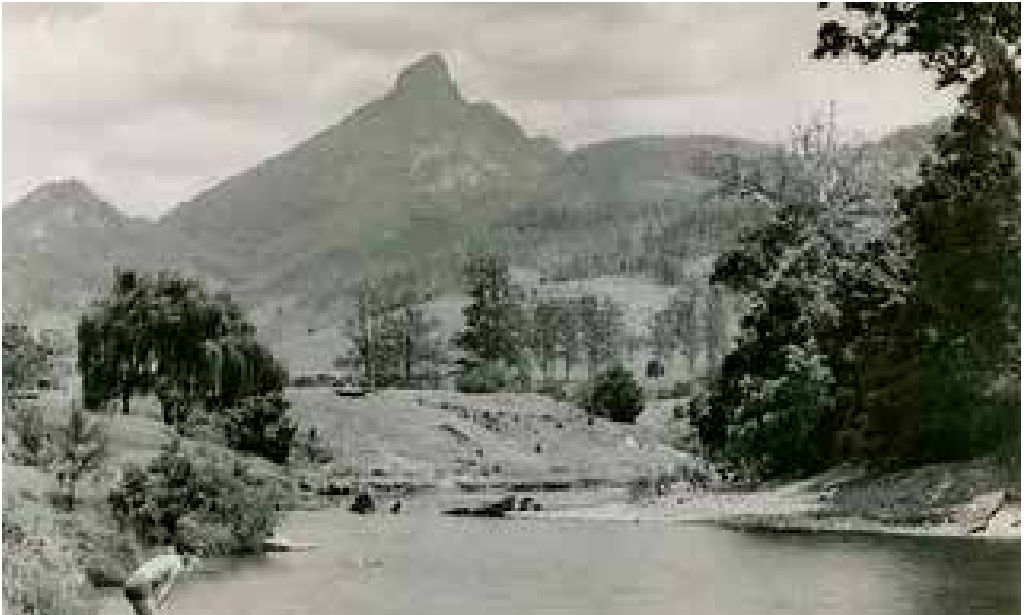

Bryan Page a senior Law lecturer at UNE Armidale has called for a new Royal Commission on the feasibility of new States.

- Creating up to 20 new States would deliver government that was much closer to the people.
- Australia is widely regarded as the most performed democracy in the world.
- There are too many high ranking 6 figure salaried government jobs sucking up billions.

Famous historian Geoffrey Blainey has said “that for a land this size we do not have enough States and thus miss out on the advantages of federalism”.

So now we residents of the Northern Rivers Region find it more important than ever to seek control of our own political destiny; basing this endeavor on the lawful Constitutional framework and efforts of those who have gone before us.

We are responding to the fact that our liberty, freedom of movement and thought, bodily integrity and our very future have been grievously impaired and threatened by the current system.

WELCOME TO THE NORTHERN RIVERS FREE STATE MOVEMENT

The Northern Rivers Region of New South Wales Australia is regarded by many as the best part of the country, “God’s own country”. It has an unspoilt natural environment and dramatic topography of unparalleled beauty. It is situated on the very propitious eastern side of the continental land mass and is blessed with an ideal climate and atmosphere, which has nurtured a very special and unique human population.

The people of the Northern Rivers have a deep relationship with the land and respect for their fellow human relations, other living creatures that inhabit the region and Mother Earth Herself. The mighty Pacific Ocean is a striking and nourishing part of the experience of this region.

Within this area has been fostered a population of conscientious and forward-thinking persons who are amongst the most aware and well informed of the whole country. Many have come to live here attracted by the beautiful natural environment, lifestyle, fellow like-minded freedom lovers and even the deep spiritual presence here. These persons come from all walks of life and are compassionate and ethically minded. They will provide the leadership for the new and enlightened world which is emerging.

Together here many intuit that a time of great change and promise confronts us all and that the Northern Rivers region has a unique destiny to fulfill in pioneering the way of life for a time of renewal and transformation, after the great and impending local, national, and global challenges.

However, it has been clear to many after the tyranny that has been inflicted upon the World’s population from January 2020 in response to the global Plandemic emergency, that the leadership of our nation involving State, Federal, and Local, has not represented the best interest of the people and have failed on their side of the basic bargain of the Civic contract. On the contrary they have willfully perpetrated measures which have been to the great detriment of the country’s population.

The people have been subject to forced unproven experimental medical procedures, unlawful lockdowns, incarcerations, and brutality as well as personal and national economic catastrophe which were propagated by all types of ambiguous official messaging and deliberately false propaganda from a corrupt and politically biased media.

The permanent ruling class of financial Elites and corrupt Bureaucracies supposedly control the people that they

rule with their democratic consent and therefore purport to maintain their own legitimacy. They enjoy the privilege of their powerful positions, in a pure form by maintaining the principle of dedicated service for the prosperity and the welfare of the people. This however has not been the case and the majority of our elected representatives have aligned themselves with a non-democratic, neo-Marxist, globalist agenda which is dedicated to the UN goals of Agenda 21/30 for the purpose of the rapid depopulation of the human community and a totalitarian Satanic New World Order, global government.

The intelligent amongst them know that they too are bound by Universal Laws even though they are practitioners and participants in a world-wide system of the darkest type of Godless practices. However, the program of the World's ruling elites seeks to subvert the natural order oppose and abuse the Will of God as they struggle to maintain their mastery of the World.

The technological transhumanist agenda has been broadcast and coerced onto every level of the human community and it spells the death of humanity and its traditions.

The World's Leaders have not acted in good faith, only in cynical darkness or at best myopic and stubborn ideological naivety. Therefore, their legitimacy to rule under the mandate of God the

Creator has been undone by Nature's Own Hand and they will in time be brought low from their cruel and arrogant position.

Upon too many fronts the real welfare of the people of this country has been assailed by incompetent and indifferent leaders. The comfortable and confident existence that many Australians regarded as their Right, which was the fruit of the many sacrifices of previous generations has been sabotaged by the constant and persistent assault of Globalist interests, who use as their weapons the deceptive cloak of fake news, dramatized human Rights for the purpose of social undermining and transformation, weaponized environmentalism, and medical alarmism. This is all achieved by a constant stream of demoralizing and terrifying media using all types of technological frequency applications for the purpose of mind control and public acquiescence.

How can a population make an informed decision about their lifestyle and democratic choices when they are constantly subjected to the avalanches of misinformation falsehoods and lies all crafted to suit the narrative of global enslavement.

Children globally have been made the special targets of the diabolical form of the current fashionable and social disintegration of society.

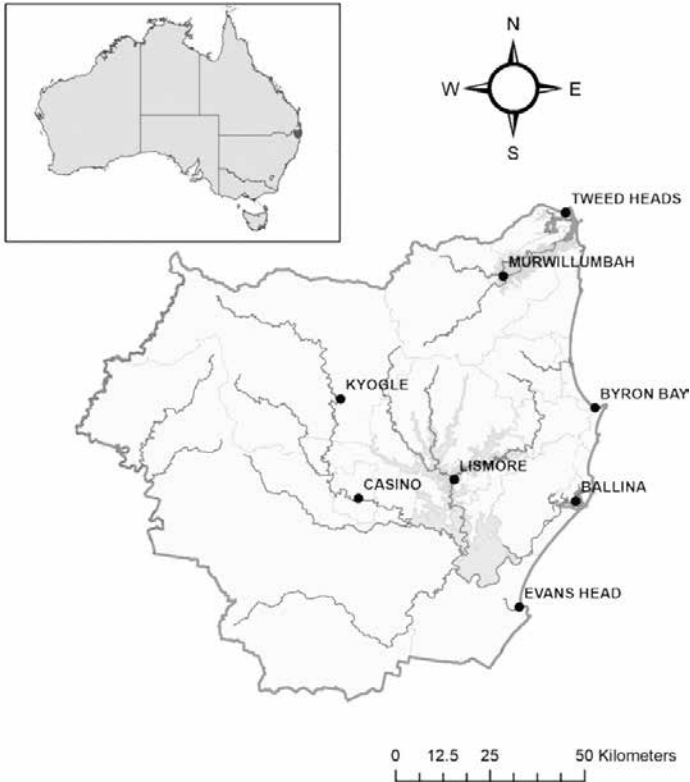

The innocents of our time are the victims of the most heinous, pseudo educational and cultural assault with all common-sense being not applied in the process of education have been disregarded.

If the society does not recognize that its Primary Responsibility is to produce and nurture its next generation then it will quickly cease to exist and be relegated to the pages of history.

The charges raised herein against the status quo may be understood and verified by any amount of unbiased research, and the crimes of the so-called rulers and their financiers of the

modern Babylon are obvious to anyone of sound mind yet remain hidden in plain sight, obscured incessantly by the endless drone of the mind control media.

Therefore, the residents of the glorious Northern Rivers Region are not prepared to be simply erased in the ongoing globalist depopulation agenda and the current genocide of the world's civilized people. The process for Independence and freedom for the Northern Rivers Region has begun and it will become a real 'Light on the Hill' for the rest of Australia and for the World.

AFFIRMATION

On this most historic and auspicious festival day of Akshaya Tritiya, the 23 of April 2023, in the presence of an assembly of Free Men and Women, in the town of Murwillumbah let it be known that the people of the Northern Rivers Region hereby declare their intention to dwell as free men and women on the land, under God the Creator, free from control of any artificial corporate entity or illegitimate structure.

*That we shall under the original Constitution of
The Commonwealth of Australia seek our right and also
The Common Law to FREELY and LAWFULLY organise and maintain
our Statehood for the welfare of the people within its boundaries.*

From this day forth we also declare that; The Northern Rivers Free state shall exist as an entity, with the intention of being established in de jure form within its own jurisdiction as soon as lawfully and practicably possible.

That we shall establish a Consultative Assembly consisting of representatives from across the region for the purpose of expediting and completing the purposes of our Free Statehood.

And that we shall seek to uphold principles of dignity and righteousness based upon the most ancient of Authority and Precedent.

Affirmed on this 23rd day of April 2023,
in a lawful and peaceful assembly by the
residents of the Northern Rivers Free State.

Witnessed by

BV. Paramanthe Swami .

***The 1st ever Northern Rivers Free State Movement was held
in Murwillumbah on 23rd April, 2023.***

*It was an enormous success with over 200 people in attendance,
and the emergence of a brand new State has begun.*

*We had a few issues with accessing our initial venue and had to
move up the street to the Bhakti Yoga Centre, and after waiting
patiently everybody attended the meeting when it finally got
underway. That shows a belief and a strong
commitment to our cause.*

*We want to thank each and every one of you.
This is just the beginning.*
